Emergency Plan Training

This straightforward course helps you develop, update and maintain an Emergency Plan tailored to your individual organization and designed to work in harmony with other community organizations and the overall emergency response structure. Participants receive a basic plan template and learn simple action steps to complete and customize it to their particular needs.

Build an emergency plan for any size origination. Learn how you can prepare your organization so that you can be ready to respond and assist the people you serve!

This will be a series of 2 classes designed specifically to start you and your organization on building an emergency plan. Attendance at both sessions is highly recommended.
