City of Alameda, California

JUNE 26, 2017

TO: PROSPECTIVE BIDDERS

REQUEST FOR QUOTATIONS
MAINTENANCE OF THE
BAYPORT STORMWATER TREATEMENT POND
ADDENDUM NO. 1

Addendum No. 1 is hereby issued to make the following revision to the scope of work:

1.   Scope of Work Exhibit "A"
   a.   Scope of Work Exhibit "A", referenced in Contractor Agreement, Page 1, Section II, Scope of Services is changed to read:

The City of Alameda (City) does not presently anticipate the need for nor is it actively seeking to implement aquatic pesticide application(s) under the pending contract "Maintenance of the Bayport Stormwater Treatment Pond". Neither the City nor the Bayport Municipal Services District presently has coverage under the Statewide General NPDES Permit for Residual Aquatic Pesticide Discharges to Waters of the United States from Algal and Aquatic Weed Control Application (Water Quality Order 2013-0002-DWQ). Rather, the City wishes to rely upon the professional services under this pending Maintenance contract for site maintenance practices consistent with the City's Integrated Pest Management Policy that will, in conjunction with all Scope of Services items, prevent nuisance aquatic weed or algal conditions in the Bayport Stormwater Treatment Pond (Pond). And, to the extent that nuisance aquatic weed or algal conditions may begin to develop in the Pond, the City preferentially wishes to rely upon non-chemical means to control and abate such conditions, also consistent with the City's Integrated Pest Management Policy. Chemical controls for algal and/or aquatic weed control application in the Pond that would be subject to the Statewide General NPDES Permit are beyond the current Scope of the subject RFQ for Maintenance of the Bayport Stormwater Treatment Pond."

APPROVED: _____   _____6/23/17_____
